JESUS CHRIST.

A Description of His Person, According to an Ancient Manuscript.

The following description of Christ was sent by Publius Lentulus, President of Judea, to the Senate of Rome:

There lives at this time in Judea a man of singular character, whose name is Jesus Christ. The barbarians esteem Him a prophet; but his followers adore Him as the immediate offspring of the immortal God. He is endowed with such unparalleled virtue as to call back the dead from their graves, and to heal every kind of disease with a word or touch. His person is tall and elegantly shaped; His aspect admirable and reverend. His hair flows in those beautiful shades which no united colors can match, falling into graceful curls below His ears, agreeably touching on His shoulders, and parting in the crown of His head like the head-dress of the sect Nazarenes. His forehead is smooth, and His cheeks without a spot save that of a lovely red. His nose and mouth are formed with exquisite symmetry; his beard is thick and suitable to the hair on his head, reaching a little below his chin, and parted in the middle like a fork, and his eyes are bright; he counells with mildness and invites with the most tender and persuasive language. His whole address, whether in word or deed, being elegant, brave and strictly characteristic of so exalted a being; no man has seen him laugh, but the whole world has frequently seen him weep; and so persuasive are his tears that the multitude cannot withhold their tears from joining in sympathy with him. He is very modest, temperate and wise. In short, whatever this phenomenon may be in the end, he seems at present a man of excellent beauty and divine perfection, every way surpassing the children of men.

In the cure of severe coughs, weak lungs, spitting of blood, and the early stages of consumption, Dr. Pierce's "Golden Medical Discovery" has astonished the medical faculty. While it cures the severest coughs, it strengthens the system and purifies the blood. By drug-

gists.

It disabled his arm, But then, like a charm, St. Jacobs Oil cured up the Swelling.

My husband had drunken habits he could not overcome until Parker's Ginger Tonic took away his thirst for stimulants, restored his energy of mind and gave him strength to attend to business.—Cincinnati Lady.

DR. SPINNEY

NO. 11 KEARNEY STREET, San Francisco, Cal.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit \$500 for every case of Seminal weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milky hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs. Office Hours—10 to 6 to S. Sun-days from 10 to 11 A. Consultation Free. Thorough examination and advice \$3.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars. Call or address

Summons.

IN THE DISTRICT COURT OF THE Seventh Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada, sends to Daniel Reynolds and William Mayberry greeting: You are required to appear in an action commenced against you as defendants by Central Pacific Railroad Company as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons, exclusive of the day of service. If served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or, if judgment be taken against you, according to the prayer of said complaint. The said action is brought to obtain a judgment that there is due from defendants to plaintiff, under and by virtue of a certain contract fully set forth in the complaint on file in said court, the sum of one thousand six hundred and seventy and 4/100 dollars (\$1,670.80) for second, third, fourth and fifth years' interest on the remainder of purchase money designated in said contract and said sum added to purchase money and interest on said remainder of purchase money from November 23, 1878, to January 1, 1881; that defendants failed to pay to plaintiff, on or about the 14th day of May, A. D. 1881, you, the defendant, willfully deserted and abandoned plaintiff, and ever since have continued, and do now so continue, to desert, abandon and live apart from plaintiff against her wish and consent, and without cause; that for more than one year last past you, defendant, have failed, and without cause, to provide for plaintiff the necessaries of life; that there was no issue of said marriage; that there is no common property. Plaintiff prays judgment to be rendered in her favor, and that she be restored to her maiden name and for her costs herein, all of which plaintiff prays to be awarded. The complaint which is on file in the office of the Clerk of said Court at Reno, in said county.

And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the said Court for relief, and that the plaintiff be let into the possession of said premises, and that said contract be declared null and void; that the said plaintiff be awarded her share, on or about the 14th day of January, A. D. 1883.

IN TESTIMONY WHEREOF, I, R. S. Osburn, have hereunto set my hand and the seal of said Court, this 12th day of January, A. D. 1883.

By W. L. Ewer, Deputy.

JOS. P. D. REDDING, Attorney for Plaintiff.

ADDITIONAL COUNSEL.

The action of the Board of County Commissioners in employing additional counsel is the subject of much discussion. It seems perfectly plain to unprejudiced minds that after two Grand Juries have found indictments it is the duty of the Board to see that the county's side is equally strong in talent and numbers, and that the trial be one not only in name, but one in fact, so that the matter may be settled. The county paid \$300 to General Kittrell in the Scoville case before the Coroner's jury. At that rate if it had come to trial it would have cost a good many thousands for additional counsel. In the Verdi car robbery case the county paid \$1,000 for additional counsel, and again in Mollie Forsyth's trial, and every county and State does the same thing. It looks very plain that an indictment makes it the duty of the officers to secure fair trial at any cost. If anyone is to blame it is the Grand Jury of taxpayers and not the Board or the District Attorney. It will be better for all concerned to have this thing settled for good.

PROBABLY ALL TALK.

The Republicans are quite anxious to carry Ohio this Fall, and talk of trying to get ex-President Hayes on the ticket. Second adjournments are not common. John Quincy Adams died in the Congressional harness after having served as President, but his case is exceptional; so is that of James Monroe, who after having occupied the office of President of the United States for eight years, was elected a Justice of the Peace in Virginia. John Tyler was also elected Roadmaster in his district and Millard Fillmore was Justice of the Peace in Buffalo after leaving the White House.

EDITORIAL NOTES.

Governor Stanford's levee to protect his ranch from the waters of Butte creek will be the largest work of the kind on the Pacific Coast. It is to be 50 feet wide at the base and 10 feet at the top, and will cost about \$60,000.

The Key West sponge fleet, numbering 70 vessels and 600 men, is out on a cruise. A successful catch of sponge for the fleet brings about \$300,000 into that city. In San Francisco there are sponges who take more than that sum out of the city yearly.

It has been discovered that one cause of the popularity of the telephone consists in the fact that by means of it a man can talk with a friend five minutes without asking him to take a drink.

The proposed public park in Montana will have an area of 12,000 square miles—nearly 10 times that of the whole of Rhode Island.

The next Grand Jury may revise the Scoville murder case.

TELEGRAPHIC BRIEVITIES.

—The story about blowing up Salisbury Cathedral is a hoax.

—The Connecticut Senate, by a vote of fifteen to six, defeated the bill for bidding railroads to charge a higher rate for short distances than for long.

—Colorado parties imported some 20,000 head of cattle valued at about \$225,000 yesterday. This is the heaviest entry ever made at Brownsville, Texas.

—Five hundred dwellings, the telegraph station, postoffice, a number of stores, a large quantity of coal and wood and much mining property have been burned in the village of Katow, Russia.

—Reports have been received of a terrible flood in Yabuhia, Mexico. The river rose so rapidly that people could not escape. Six were drowned, and much valuable property and stock swept away.

—The race for the Stamford stakes at the New York Spring meeting in England yesterday was won by Seward; Moonstone second; Leantine third; J. R. Keene's Crown Point came in last.

EASTERN DISPATCHES.

[ASSOCIATED PRESS.]
A Lively Railroad Competition Between East and West.
 CHICAGO, April 19.
 Competition between the so-called Sunset route, which consists of the Morgan line of steamers between New York, New Orleans, Galveston, Harrisburg and San Antonio and the system of Southern Pacific roads to the Pacific coast, and the overland route via trunk lines from eastern seaboard points in connection with the Iowa line and the Union and Central Pacific railroads, is said to be getting very active. It is claimed that the former route is making large cuts in agreed rates on Pacific coast business and taking travel away from it. It is also stated that the line out of Chicago, not in the Iowa Trunk Line Association, is taking a hand in the business. The matter has become of such serious consideration that a meeting will probably be held at Chicago at an early date, at which parties interested will be represented and an effort made to effect a reconciliation.

Texas Cowboys on a Threatening Strike.

FORT WORTH, April 19.
 Between 200 and 300 cowboys on ranches in the Panhandle are on a strike for an increase of from \$30 to \$50 per month and board. The men are well armed and threaten to kill any man, fire ranches and work general trouble. Some of the largest companies have signified their unwillingness to meet the demands and are now taking steps to secure U. S. troops or Texas rangers to protect their property.

Suit Against a Telegraph Company.

WACO, Texas, April 19.
 A suit was filed in the District Court of this county to-day by A. B. Stewart against the Western Union Telegraph Company for \$25,000 damages. The suit is based upon the alleged failure of the telegraph company to deliver promptly a message from plaintiff's dying brother at Marshall, Texas, desiring him to come to him, alleging that the message was given to the operator February 3d and not delivered to him at Waco until the morning of the 5th.

Walked Overboard and Drowned.

CHICAGO, April 19.
 On the night of March 24th W. H. Andrews, cashier at the Windsor House, Denver, registered at the Grand Pacific Hotel in this city. After supper he took a walk and never returned. His body was taken from the Chicago river yesterday, and it is surmised that he accidentally walked into the stream when one of the drawbridges was turned. A package containing \$100 cash and two drafts of \$100 each were left by him at the hotel.

Strikes of Workmen—Married Men Weakened.

CHICAGO, April 19.
 The striking brick-layers will parade this evening and be joined by other local unions in a mass meeting on the lake front. The general situation is unchanged. It is declared that married men among the strikers are being compelled to accept the terms of the builders, driven to it by the long lockout. Cigar makers have been formally notified of an intention to strike on the 7th day of May against certain firms who have not acceded to demands.

The Irish Convention to be Held at Philadelphia.

CHICAGO, April 19.
 Over 150 delegates from this city alone will attend the coming Irish convention in Philadelphia next Thursday, and it is expected the total representation in the convention will not fall short of 1,000. It has not yet been determined who will call the convention to order. Alexander Sullivan of Chicago is in receipt of a telegram from Judge Mooney of San Francisco asking him to represent that city in the convention.

A Sheriff's Assistant Shot, Probably Fatally.

BOISE, Idaho, April 19.
 Walter Coffin, brother of Frank L. Coffin of this city, was shot and probably killed yesterday by a man named T. F. Cotner, in Fayette valley, 50 miles north of here. Coffin joined the Sheriff of Union county, Oregon, in pursuit of Cotner, who helped to commit a double murder recently in that county. Coffin was shot under the eye at short range and the ball ranged up through the head.

Ohio Saloon Men Making a Kick.

CINCINNATI, April 19.
 The Saloon Keepers' Association have formally determined to oppose by every legal method available what is known as the Scott law, which imposes a tax of \$2,000 a year on all saloons where spirituous liquors are sold and only \$200 where only beer and wines are sold.

Nebraska Knights at the Conclave.

OMAHA, April 19.
 The representation of Nebraska Knights Templar at the Conclave here was very full, nearly all of them having already announced their determination to attend.

An Irish-American Informs on the Dynamiters.
 LONDON, April 19.
 Norman, Dalton, Wilson, Dr. Gallagher, Bernard Gallagher, Curtin, Ansbrough and Whitehead, the eight men arrested charged with being concerned in the dynamite conspiracy, were again brought up in the Bow street police court this morning. On the prisoners being arraigned it was announced that Norman had turned informer. The rest of the prisoners, including Bernard Gallagher and Whitehead, were informally tried for treason and felony. Norman testified that his real name was Wm. Joseph Lynch, born of Irish parents in the State of New York.

Lynch swore that he worked in October last at a coach builder's in Brooklyn. At that time he joined a secret society in New York, the object of which was to free Ireland by force. The members were not known to each other by names. Members were selected to go on missions. He was sent to Dr. Thos. Gallagher, who lived at Green Point, Long Island. Gallagher told him he was to go to London, and he would there learn what to do. When he got there Gallagher gave him \$50 and told him to take steamer passage on a steamer for Spain under the name of Norman. Gallagher gave him \$100 more and told him to go to London and inquire at the American Exchange for a letter addressed to him. Lynch did not want to go, as he had relatives to support, but finally went. Gallagher gave him a small box. He examined this on the steamer and finding it contained a spring which worked by pressure, he became alarmed and threw it into the sea.

Lynch reached London March 22d, and met Gallagher on the 28th. They walked past the scene of the Westminster explosion. On asking Gallagher "if that's what we are going to do?" the latter answered, "Yes," Gallagher viewed the Houses of Parliament and said, "They will make a great crash when they come down." At this point Gallagher shouted out from the dock, "You infamous liar!" Lynch said he inferred that O'Donovan Rossa was in the scheme. Rossa was referred to as the "old man." Lynch said he went to Birmingham to see Whitehead, who said that 50 pounds of nitro-glycerine had been taken away that day, and that he would soon know what the liquid was. Whitehead here shouted: "You lie, you traitor!"

Another Suspect Arrested.

DUBLIN, April 19.
 It is stated that Eugene Kingston, arrested at Liverpool yesterday on suspicion of being connected with the Phoenix Park murders, was for some time head of the inner circle of Irvine's.

A Parnellite on an Irish Jury.

DUBLIN, April 19.
 Timothy Kelly, charged with participating in the murders of Cavendish and Burke, was placed on trial this morning and a jury was sworn, one of whom is a Parnellite.

Drunken Firemen in a Temperance Town.
 TORONTO, April 18.
 A fire this morning destroyed the village of Oakville, on the lake shore 20 miles from here. A fire brigade went out from here by a special train, but got there too late to save the village. The loss will amount to \$100,000 or more. The inhabitants are flocking to this city by hundreds for shelter, many on foot. The prohibition act was in force in the county where the village is situated, but when the fire reached the drug store two barrels of whisky were rolled out on the street and the members of the village fire brigade all got drunk and helpless. Otherwise the fire might have been controlled in its first stages.

The Apache War—General Crook Going After the Hostiles.

DENVER, April 19.
 An El Paso Times special from Crook's headquarters at Wilcox, A. T., says: General Crook with 200 Apache scouts and one company of cavalry will move into the mountains of Mexico next Sunday. Mexican troops will co-operate. Fears are entertained of a fight between Apache scouts and Rangers from Tombstone, who are reported en route to meet the San Carlos Indians.

Four Boatsmen Drowned.

SEATTLE, April 19.
 Charles Johnson reports that he and four other Swedes capsized while sailing on Lake Washington, and his companions—Aaron Larson, Aaron Johnson, B. Johnson and one name unknown—were drowned. The survivor clung to the boat five hours and drifted ashore exhausted. He finally reached the house of a settler.

Fatal Explosion of a Defective Boiler.

PORTLAND, O., April 18.
 A boiler in Donald McCreery's planing mill burst yesterday afternoon. W. H. Ghent, engineer, was killed and two others wounded, but not dangerously. The front of the mill was blown out. The boiler was scale-eaten.

Jurors' Fees.

By an order passed by the Commissioners yesterday any juror who has been discharged for the term may get a certificate of the amount due him from the county, and the Auditor will issue his warrant on presentation of such certificate.

JOTTINGS.

Minor Occurrences in and About Town.

Be sure you go to the ball on the 15th of May.

S. Lemmon has a pair of horses for sale. Read 50-cent column.

The bob-tailed sleeper has been drawn off and a regular one substituted.

It was many times remarked this morning, "Wouldn't it be a gay day for a fire?"

A full line of school books at Nashby's. Thermometer at 7, 9, 11, 1 and 3-50, 58, 57, 51, 47.

Some of the bootblack brigade have managed to get away in spite of the vigilance of train men.

It would be a shame for any young man—or old one, either—to neglect visiting the ladies at Kimball Hall to-night.

There was a lively little snow-storm at Boca this morning, and further up in the mountains there was quite a tempest.

The Coats Tavern is a terrible eyesore. It is about the first thing noticed from the depot platform, and is giving the town a black eye.

A long tea-train went east this morning, the first for some time. The east-bound emigrant had to sidetrack to allow the tea-train to pass and was some two hours late in consequence.

It would be a pious idea to gather up the litter and offal in yards and back alleys and have a grand conflagration on the banks of the Truckee. There is a fearful condition of things in some places.

This has been a mean, measly day, so far. At 11 o'clock a strong gale howled from the south, making a clean sweep of north-and-south streets, and raking up clouds of dust and sand to make pedestrians miserable.

It is particularly remarked that the markets of Reno display finer meats than most other towns can boast. The beef is extra fine and the mutton prime. Rule exhibited dressed sheep the other day that weighed 112 pounds.

Negotiations are still pending between District Attorney Alexander and Col. A. C. Ellis. It is very probable that the matter will be settled to-morrow by the selection of the Carson lawyer to assist in the prosecution of Kinkaid and Crockett.

In Algodones, New Mexico, lives a Pueblo Indian over 100 years old, and he earns his own living by working on a loom 200 years old. If he should work another 100 years he couldn't begin to make a suit of clothes such as Abraham Bros., at the White House, sell for a few dollars. But they have them at all prices, from the cheapest to the finest dress suit.

PERSONALS.

Brief Mention of the Movements of Notables and Others.

W. E. Scott of Bidwell is in town.

Wm. Nichols of Eureka is at the Palace.

Mrs. Pierce Evans returned home to-day.

S. H. Crow of Beckwith is visiting Reno.

Wm. T. Ross came down from Wadsworth last night.

Dave Evans came in from Antelope Valley yesterday.

Dr. Bergman went to Boca last night to see D. D. Whitbeck.

Lieutenant-Governor Loughton came up from the Bay this morning.

Assessor Stoddard has finished the work of assessing up north, from Buffalo Salt Marsh this way.

T. G. Taylor of Gold Hill and H. S. Free of Wadsworth were registered at the Depot Hotel last night.

Marshall Corbett is quite lame with rheumatism, and finds it difficult to get around to attend to official business.

Anniversary of Notable Events.

April 19, 1775—Battles of Concord and Lexington, the first of the Revolution.

April 19, 1783—Washington proclaimed to his army at Newburg the declaration of peace between Great Britain and the United States of America.

April 19, 1861—Blockade of the ports of seven of the seceding States proclaimed by Lincoln. Sixth Massachusetts regiment attacked by a mob in Baltimore.

April 19, 1865—Funeral services of Lincoln held at Washington.

Improving His Herds.

Jo. Dean of Cortez Valley, Eureka county, arrived from Illinois last Thursday with five fine young Norman stallions and three head of Hereford cattle. Some of the horses weighed at the rate of 100 pounds for a month's age. They go to his range in Cortez Valley.

A Mere Song.

Dr. Bergman was served with papers in a suit brought by Mr. Russell, who fell off Marker's fence some time ago, for malpractice. Doc says he thinks the amount is \$20,000, but is not sure, as he hasn't read the papers.

WEALTH IN CATTLE.

Great Sales and Increased Prices During the Past Few Years.

It is estimated that the annual cattle sales in the United States amount to about \$300,000,000. This wealth has been greatly increased by the large augmentation of thoroughbred cattle. The American Herd Book has been extended to 23 volumes. These volumes are occupied with the record and pedigree of 60,000 cows and 47,000 bulls, and all of one class, viz: Durhams and Shorthorns. The best beef which finds its way to market is that of graded Durham cattle. The *Agricultural Review* makes this comment: One not intimate with the subject might suppose that with such an array in numbers of our shorthorns the prices of them would gradually diminish at both the public and private sales, now so frequent and in such large numbers in our State. Such, however, is not the fact.

AVERAGE SALES.

Are now equal in prices at which they have ever been. During the last five years the public sales have annually averaged 3,000 animals—bulls, cows and heifers—at an average price of \$162 per head, while probably an equal number have been sold at private sales and at somewhat higher prices. Many of them have sold for \$1,000 and up to even \$10,000 each, so esteemed for pedigree and quality are they by our enterprising breeders. Much higher prices, indeed, have been obtained in some past years, even as high as \$25,000 and upward for single animals from eminent English breeders who have come here after them; but that was in a time of high excitement in short horn rivalry, and need be noted only as one of the extraordinary fluctuations in their progress. The unfamiliar reader may ask, where is the great

DEMAND FOR THESE CATTLE? Where is the market for the several thousand bulls annually produced? The question is readily answered. Until recently herds of cattle by hundreds of thousands roamed over the broad ranches of Texas, New Mexico, Colorado and California, of the descendants of the original Spanish importations into Mexico from Spain in the 16th century. Ranging over the vast plains and prairies of that mild climate, they increased multitudinously. Texas became full of them, New Mexico also; and since the incorporation of these countries with ours, uncouth and ragged as they were in their wild condition, those cattle have been brought to the subjection of civilized stockmen, arranged into herds, branded with the

MARKS OF THE OWNERS, And at marketable are driven through the Indian Territory into Kansas, and thence to Missouri and Chicago markets, either for immediate slaughter, as their conditions would afford, or sold to the grazers and feeders for a better market eastward. These wild cattle are unfit for choice beef, but the cows, crossed on the ranches by short-horned bulls, produce tolerably good steers, partaking strongly of the blood and forms of their sires, and become marketable animals, with good pasturage and grain topping-off in the hands of the corn-growing grazers who purchased them.

THE GRADING UP OF CATTLE In the West and Southwest has been going on rapidly within the last 10 years. It would be difficult to decide whether Illinois or Kentucky is the center of the short-horned breeding interest in this country. The center, wherever it may be, is a movable one. The Texan steer, that is the original long-horned, half-wild animal, is rapidly disappearing. Doves of these cattle are now rarely seen. They have been displaced by better ones.

Cattle Movements.

T. F. Judge will to-night ship to San Francisco seven car-loads of beaves bought of Louis Dean. Todhunter will also ship six car-loads of cattle that came from Long Valley. Yesterday Wm. Riley came in from Honey Lake with a band of beaves, and John D. Kelly brought in a bunch from Long Valley. Wm. Hope and Barney Horn will come from Winnemucca Sunday with a special train of 20 cars of beef for San Francisco.

Charges on Freight to Mono County.

Now that the roads are in good condition teamsters are preparing to haul freight from Carson and Reno to Clinton, Bridgeport, Lundy, Tioga, Aurora and Bodie, says the *Free Press*. For instance, George Miller of Bodie has a car-load of flour coming in on wagons. The charges are 15 cents from Carson. A number of Mono county merchants are preparing to have goods come via Antelope Valley.

More Railroad Law.

United States Marshall Corbett was in Reno yesterday serving the papers in a suit of Moran Bros. of New York against the resident members of the N. & O. railroad company. They enjoin all parties from transferring any bonds of the company that were issued to cover indebtedness.

AN UNBIASED OPINION.

An Intelligent Citizen Gives His Views About the Employment of Extra Counsel.

RENO, April 18.

EDITOR GAZETTE:—There seems to be more or less feeling, which assumes somewhat of a partisan character, caused by the action of the Commissioners in appropriating \$1,000 for the employment of counsel in the case of the State vs. Kinkaid, Crockett et al. The two last Grand Jurors, composed of representative men and large taxpayers of the county, have heard the evidence in the case, and each body, under the instruction of the Court and advice of the District Attorney, has said by the indictments reported, that the criminal law of the State has been violated. If the actions of the parties charged amount to a crime, it is due the State, and the people of the State, to have the law vindicated, regardless of *judicious* expenditures and personal feeling.

The voice of the Grand Jurors, who made an *ex parte* examination, have been heard, and now it is not only due the parties charged, but the public, to know whether a crime has been committed. The defendants as well as the State are entitled to a fair and impartial trial. The defendants have secured eminent and able attorneys to protect them in their rights. It is due the public that the State should be as ably represented. The moral effect of a fair and impartial trial, whether the defendants go acquitted or are convicted, is of more importance to the people of Washoe county than the amount required to secure an able and just prosecution. If an acquittal follows the public will know that the State has been diligent; that the semblance, at least, of crime has not been winked at, and that criminal wrongs can not go unpunished. The matter of employing foreign counsel may be one of taste, personal preference or of public policy. So long as the zealous for such a course are unknown to us, we must assume it is done with honest intent, and to serve the ends of justice, or at least, that there is some good reason therefor.

That Reno has able lawyers who have had extended criminal practice, who are as able as any in the State, lawyers who would do their whole duty in any case in which they would accept employment, there is no question. The case is now in the hands of the Court, and ought to be, and will be, submitted to a jury who will undoubtedly mete out justice to the State and the defendants, and thus put to rest a question that has more or less vexed the minds of many for some time.

IS COTTONWOOD TIMBER?

A Mooted Question Settled by the Land Office.

The Government Land Office has decided that the cottonwood is a timber tree, and that it may be used in planting land which the settler wishes to acquire under the timber culture acts, and yet there are claimants who desire to acquire land with cottonwoods already growing on it under the timber culture acts. The Commissioner of the General Land Office has lately issued a decision in this matter, in which he says: Under the current rulings of this office and the Department, the cottonwood is regarded as a timber tree, and cultivation of the same by timber culture claimants is accepted as a compliance with the law, so far as the quality of the timber is concerned. While it is shown by the testimony that this tree is not used to any great extent in the locality for manufacturing purposes, building, fencing or fire wood, yet it appears that it is used for out-buildings, houses, fences and fire-wood occasionally, according to the notion or necessity of the settler, or the distance from timber of a superior kind. The cottonwood tree, as it grows in the locality, is, therefore, not either useless for the purposes mentioned, or merely ornamental. This is apparent from the evidence in the case. The entry is held for cancellation, for the reason that the land was not subject to timber culture entry, the same not being prairie land or other land devoid of timber.

"FRIEND AND FOE"

A Treat in Store for Reno—Wm. J. Scanlan, the Great Comedian, Coming.

The Wm. J. Scanlan Dramatic Company will make their first appearance before a Reno audience next Thursday evening, April 26th, in Bartley Campbell's play of "Friend and Foe." Mr. Scanlan is one of the best comedians on the American stage. His acting is natural; he sings pleasantly, and will surely become a favorite with a Reno audience. His style of acting is not unlike that of J. K. Emmitt, who completely captured the coast with his song of "Go to Sleep, My Baby Darling." The New York *Tribune* says of Scanlan: "It is refreshing, in these days of dramatic failures, to be able to record at least an occasional success, and it is with infinite pleasure we pen the triumph of the popular young Irish comedian, William J. Scanlan, and Bartley Campbell's play of 'Friend and Foe,' now packing the spacious Windsor with delighted audiences." The box-sheet is now open at the post-office, and many seats already taken.

NEVADA'S ONLY GEYSER.

Hot Water and Steam Thrown Twenty Feet High Every Fifty Minutes.

A few miles southwest of Beowawe station, in sight from the car windows of the overland train is an immense white blotch on the mountain side occasioned by a lot of very interesting mineral springs. A GAZETTE reporter paid the spot a visit a day or two since and finds it, like all the rest of nature's wonders, very difficult to describe. The upper line of springs lie on a narrow bench 500 or 600 feet above the valley and extending half a mile in length, forming a straight mark from which the sediment descends, painting some exquisite pink and yellow tints on the incrustations that form in regular and beautiful layers. The springs are

ALL VERY HOT

And small and taste like the Chicken Soup spring at Steamboat. At the south end appears an oblong opening six inches one way and four the other, which sinks a crooked hole obliquely into the rock. Every 50 minutes a commotion is heard away down in the bowels of the mountain, and presently a stream of steam and hot water spouts up 20 or 25 feet with a rush and roar. In a few moments the stream, which looks as much like that made by blowing the water out of a hot steam boiler as any thing could be, loses its force and sinks. The hole dries out almost instantly, and then the water which has been left behind can be heard running down off the little ledges to catch the main body. Near the center of the line of springs is a larger hole from which the water sputtered and

ROSE TEN FEET

For nearly an hour, then sank out of sight. Dozens of springs of every size lie around loose, and all of them rise and fall constantly, but only a few of them explode. There are several fine ones at the foot of the hill, in one of which the reporter and Mr. Benson, on whose cattle range the springs are, boiled their eggs for lunch. Mr. Benson says the springs are changing all the time. He thinks the wind affects them and drives the heat from one end to the other. These are the only genuine geysers in Nevada, and probably the only ones on the Pacific Coast. Those at Cloverdale are said to be not true geysers but only solifaters.

TRUCKEE ITEMS.

Scraps of Interest From Our Neighbor in the Hills.

Gleaned from the *Republican* of April 18th:

The Truckee Lumber Company started their log drive yesterday. They expect to be in about 10 days.

Mill men are getting ready to commence sawing. Two weeks of good weather and all the mills on the river will be in operation.

John Huntington is now at work putting the Tahoe turnpike in order. He says he will have it in good traveling condition in 10 days.

The frosts of the first of this week injured the fruit crop of the lower end of the county quite seriously. Some claim that the entire fruit crop was ruined.

Goulden Bros. have a fine new stage and intend to run an opposition line of stages to Tahoe during the coming season.

J. F. Moody will bring his stock from the ranch next week, and will start his freight teams to Tahoe in about 10 days. Already considerable freight has begun to arrive for Tahoe and Sierra Valley.

Andy Johnson has purchased from the Truckee Lumber Company the brick building adjoining Lewison's store. The price paid was \$4,000.

N. Martin has purchased from the assignee what is known as the McClellan box factory, the price paid being \$2,800. He will at once put a crew of men at work, and commence the manufacture of boxes. He will also put in additional machinery and manufacture lath and shingles.

A walking match for \$100 a side has been arranged between Messrs. Johnson and Wilmut. It is to be a 15-hour go-as-you-please, commencing Saturday morning at 9 o'clock, and finishing at 12 o'clock that night.

Andy Miller's mill on the Hot Spring road will start up on Monday. Extensive alterations have been made during the Winter.

Shipping Ore for a Test.

Ten tons of ore have been shipped to San Francisco from the Red Canyon mines for a working test. It is said to give high assays, and if the yield is satisfactory reduction works of some kind will be erected in the district.

Claims the Premium.

Winnemucca claims the premium for being the most extensive cattle shipping station in Nevada, as the annual shipments of beef cattle range from 25,000 to 35,000 head.

Does Mining Pay?

The Sierra Buttes mine had paid in dividends to October, 1882, the sum of \$1,429,683. Plumas-Eureka has paid to the same time \$1,650,520 in dividends.

En Route from New York to San Francisco, The Acme of Dramatic Excellence.

A METROPOLITAN COMPANY OF SUPERIOR ARTISTIC MERIT, direct from the leading Eastern Theatres, supporting the talented comedian

WM. J. SCANLAN

In BARTLEY CAMPBELL'S (the famous American author) Play of

"FRIEND AND FOE,"

Author of "Galley Slave," "My Partner," "My Geraldine," and other New York successes.

FRIEND AND FOE is a play of intense interest, based on the Franco-Prussian war, interspersed with a touching love story, pure and sublime in nature, and abounding in pure Irish wit and sentiment. Pronounced by the entire press a comedy drama well written, exquisitely acted and a dramatic treat.

Incidental to the play MR. SCANLAN will sing the following songs of his own composition:

Moonlight at Killarney,
The Poor Irish Minstrel,
I Love Music,
Mrs. Regan's Party, with dance.
The Irish Poteen,
O'er the Mountains,

NO USE FOR THEM.

Concerning Certain Relics of the

Past--Dogs That Have

Their Day.

George Stephenson's "Rocket" and
 the magnificent locomotives of to-day are
 built upon the same general principle, yet
 the machine with which the great engineer
 astonished his day is interesting now
 only as an illustration of the beginning of
 the invention. There were plasters with
 holes in them long before HENSON'S
 CAPSINE POROUS PLASTER surprised
 both the public and the physicians; and
 the triumph of the Capsine is founded up-
 on the partial successes of the utter fail-
 ures of its predecessors. Everything of
 value in the old porous plaster is retained
 in the Capsine, but at this point all com-
 parison ends and contrast begins. For ex-
 ample:

The old plasters were slow in their ac-
 tion; the Capsine is quick and sure.

The old plasters lacked the power to do
 more than to impart slight, temporary re-
 lief in cases of easy treatment; the Cap-
 sine penetrates the system and perma-
 nently cures the troubles for which it is
 recommended.

The old plasters depended for any good
 results they might attain upon an ac-
 cident of their makers and the naked faith
 of their wearers; the Benson's reaches its
 ends by means of the scientific combina-
 tion of the rare medicinal ingredients
 which it contains.

In brief, the old plasters, like Stephenson's
 discarded engine, are switched off the
 track, while the Benson's goes on its
 way winning golden opinions from all
 sorts of people.

Yet in this very fact lies the leading
 danger to the people who buy and use this
 reliable and scientific article. "Hypocon-
 trition is the tribute vice pays to virtue." Im-
 itation is the concession failure makes to
 success. Benson's Plasters are parodied
 in name and style.

Beware of swindlers. The genuine have
 the word CAPSINE cut in the center.
